FOREWORD

Journal of Information Technology and Engineering: is a scientific journal that presents original articles about research knowledge and information or the latest research and development applications in the field of technology. e-ISSN number: 2961-8215; p-ISSN: 2961-9068. The scope of the Journal of Information Technology and Engineering covers the fields of Informatics, Mechanical Engineering, Electrical Engineering, Information Systems and Industrial Engineering. This journal is a means of publication and a place to share research and development work in the field of technology. Articles published in this journal are addressed to the editorial office. Complete information for article loading and article writing instructions are available in each issue. Submitted articles will go through a selection process for bestari partners and/or editors. The Journal of Information Technology and Engineering is published three times a year, in April, August, December.

Journal of Information Technology and Engineering publishes the only papers that strictly follow the guidelines and templates for manuscript preparation. All submitted manuscripts will go through a double-blind peer review process. The paper is read by editorial members (according to their field of specialization) and will be screened by the Managing Editor to meet the criteria required for publication in the Journal of Information Technology and Engineering. The manuscript will be sent to two reviewers based on their historical experience in reviewing manuscripts or based on their area of specialization. Journal of Information Technology and Engineering has reviewed the form to keep the same item reviewed by two reviewers. Then the editorial board makes a decision based on the reviewers' comments or suggestions.

Reviewers provide an assessment of originality, clarity of presentation, contribution to the field/science. This journal publishes articles in the fields of Informatics, Mechanical Engineering, Electrical Engineering, Information Systems and Industrial Engineering.

The Editorial Board will continue to strive to improve the quality of the journal so that it can become an important reference in the development of the fields of Informatics, Mechanical Engineering, Electrical Engineering, Information Systems and Industrial Engineering. The deepest appreciation and thanks to Mitra Bebestari together with members of the Editorial Board and all parties involved in publishing this journal.

Regards,

Chief Editor
